Overview

Higher LTV's can often restrict your client's borrowing with a high street lender. Thankfully, we have a wide range of lenders who are able to assist clients in these situations.

Some of our lenders will happily do a second charge mortgage right up to 100% LTV for any legal purpose. This gives your clients the flexibility they need to access extra borrowing in order to fund their plans.

Overview

Many clients may have struggled with their finances in the past, which could have led to them getting adverse credit.

Applying for finance with adverse credit can be more challenging, as lenders are uncertain on how reliable the individual will be at making repayments.

In fact many high street lenders will not accept applicants who have an adverse credit history at all. However, we have lots of specialist lenders on our panel who can support clients in these situations.

We can help with:

- ✓ Missed payments on any credit, including loans and cards;
- ✓ County court judgements
- ✓ Mortgage arrears
- ✓ Accounts in default
- ✓ Debt management plans
- ✓ IVAs
